*\*Over the life of the project.*

## VOLUNTARY PLANNING AGREEMENT (VPA)

A VPA is a legal agreement with a local council where a project developer voluntarily agrees to make contributions to the community. RES has offered a VPA based on 1.5% of the Capital Investment Value (CIV) indexed annually for CPI. This equates to more than \$10 million. RES are currently working with both Dubbo and Cabonne Councils about how this funding will be shared between the two Council areas.
